Many Things Are Meant

By many dealers who claim to handle groceries. When they advertise Good Groceries, no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtues of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.

We preach the Three Main Virtues of Groceries—

Quality Quantity Price

They are mentioned in their regular order and the happy combination is causing hosts of pleased patrons at our store.

Beauty is Health.

Wanted Lake, Ark., June 8, 1900.
 I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.
 Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

The great strikes that are now on throughout the country indicate that labor and capital are not yet on a thoroughly business footing. There is certainly something wrong with the laws of the country when a few men are allowed to become billionaires and the mass of laboring men are not paid sufficient wages to decently support their families, let alone owning comfortable homes for them. Men have a right to make as much money as they can, but this right should not be legally extended so that capital can trample labor under foot. The country is large enough and work is sufficiently plentiful to allow each person a position at fair wages. The demand for our manufactures is so great that they sell at top prices, and when the man of means is allowed to make exorbitant profits on his goods while the laborer barely exists, there is something radically wrong about the system. This is a matter that the Republican party must not overlook if it desires to keep close to the people and continue in power to do good in other ways.

The above is not from Mr. Bryan's Commoner, nor is it a production of the pen of the editorial scribe of the NEVADA STATE JOURNAL, although all except the concluding sentence, is as sound Democratic doctrine as was ever presented by any organ, or in any platform of that party from the days of Jefferson down to the present time.

Strange to relate the golden words we have quoted appeared in the last number of the Lyon County Times, and we can only account for its appearance in that paper at this time upon the supposition that it was copy left on the hook when the editor forsook the principles which are enunciated therein for the party which is the direct cause of the evils which are so graphically related and so logically commented upon. The words undoubtedly express the heartfelt sentiments of the editor and the concluding sentence is no saving clause, if so intended, for the subject matter instead of being "overlooked" by the Republican party has been one of its principal studies for years, and the bringing about of the conditions, which the Times so pathetically describes, one of its chief ends and purposes. That the "great strikes that are now on throughout the country" are the natural and inevitable consequence of the trust fostering policy of the Republican party which "allows a few men to become billionaires while the mass of laboring men are not allowed sufficient wages to decently support their families," is as apparent as is the recorded fact that the Dingley tariff law, which is a creator of billionaires, is itself a creature of Republican policy and creation.

Since the time of Lincoln, the Republican party has not "desired to keep close to the people," so the Times' advice will go unheeded. It will in the future as in the past keep close to the trusts and monopolies, upon whose coercive power over the people it depends to sustain itself and to create more billionaires to give additional material for "fat frying" which is its principal industry and chief reliance in presidential and congressional campaigns.

We are afraid that our sincerely esteemed friend of the Times will find himself in trouble with his party leaders no less he curbs his unruly pencil and manifests more prudence than is displayed in the article the JOURNAL has approvingly reproduced. "Truth should not be spoken at all times," is an adage which applies especially to Republican editors and speakers. We realize how our Dayton brother is tempted from the force of habit acquired while he was in the Silver party, and whenever he feels that the truth speaking mood is about to overcome him, he can safely relieve himself by penciling similar articles which we will gladly give place to in these columns, thus relieving him from all responsibility and adding to the JOURNAL's editorial credit and renown.

PRINCIPLE AND POLICY.

The Ohio Democratic platform calls for home rule for municipalities, and it demands that no franchise extension or renewal thereof shall be granted except upon vote of the people. Upon the expansion question the platform has a clear and ringing voice: "The Democratic party opposes any extension of the national boundaries not meant to carry speedily to all inhabitants full, equal rights with ourselves. If there are united by location, race or character, to be formed into self governing territories and then incorporated into the union of states, they should be permitted to work out their own destiny."

That is Americanism as it has hitherto been differentiated in the United States from the European or monarchical policy and point of view. It is in fact Lincoln Republicanism.

There is in fact much in the platform about trusts, in one way and another, but the declaration "that all trust products should be placed on the free list" covers the entire question and leads the way to what is certain to be a very popular cry in this country. The South African struggle are not forgotten in their fight for liberty, for the platform condemns "the obvious sympathy of the national administration with the British government in its efforts to destroy the South African Republic and the policy which has made the ports of the United States a basis of supplies for the British army."

It may be safely asserted that every clause in the platform is Democratic and the only matter which invites criticism

from inside the party is the omission to endorse the Kansas City declaration of principles. In this the JOURNAL is willing to concede to the Democrats of Ohio what it would claim for the Democrats of Nevada—the right to conduct its local campaign in accordance with their own judgment, so long as no vital principle of the party is violated. Were there a State convention in Nevada this year, we would most certainly advocate its endorsement of the last national platform, for the reason that the people of this State manifested their approval of it by a large majority at the last election. We would, moreover, resent any interference with or impairment of criticism of our action by the Democrats of Ohio or of any other State in the Union. What we claim for ourselves we are willing to concede to others. Policy without principle would be indefensible, but policy with principle is both wise and commendable. Many an excellent principle has been sacrificed from lack of policy by its advocates. Principle before policy is all right, but principle with policy is better and there can be no sensible objection to such combination. A good principle ought to prevail upon its own merits, but unfortunately such is not always the case, and the advocate of a principle who fails to accept the aid of policy if necessary to the former's promotion, lacks either sincerity or such wisdom as should attach to appreciation of sound principle. If the principles of anti-trust, anti-imperialism, anti-Dingley and anti everything that is damnable were sustained in Ohio by the "policy" of the Democratic State convention, what Democrat will carp at its omission to formally endorse a platform which was constructed for a national contest which is past and gone?

The suburbs of A. L. Snider, ex-postmaster at Tuscarora, publish a communication in the Times Review in defense of Inspector Coyne who, they declare, could not have done otherwise than he did under his official oath. They aver that Mr. Snider's cashbook itself showed a larger shortage than was claimed by the officials, and that really no one was to blame for his trouble but himself and his habits. While it is probably true that the ex-postmaster's books and accounts were badly kept and were in a muddled condition owing to that official's drinking habit, and which disabled the Inspector from discovering the department's blunder from that source, it is no excuse for the mistake at headquarters where an error which involves the character and liberty of a man is little less than a crime.

That "there is nothing new under the sun" is an old adage and a true one, at least in regard to one topic of conversation—the weather. After the centuries of discussion it is as fresh now as it was at the time of the flood. In fact it is almost pitiful to think how little some people would say if they could not talk about the weather. But let those who can talk about something else, for Heaven's sake do so, at least during the continuance of these tropical days.

TOWN ORDINANCE.

Ordering the Paving of Certain Streets.

[Adopted July 18, 1901.]

Whereas, it appears to the satisfaction of this Board that notice of the hearing of the petition of T. K. Stewart and others for the grading and paving of Commercial Row from Center to Sierra street; Virginia street from Commercial Row to the Iron Bridge over the Truckee River, and Second street from Virginia to Sierra street in the Town of Reno, and the adoption of plans and specifications by publication as required by the order of this Board.

And whereas said matter coming on to be heard at the time mentioned in said notice, parties interested therein appeared and the proof and evidence that said plans and specifications are suitable and proper, it is ordered that said plans and specifications for the grading and paving of said portions of said streets be and the same are adopted as now on file with the Clerk of the Board except as to the curbing and that the same be recorded.

And whereas it further appears that it is advisable and to the public interest and benefit, that Commercial Row from Center street to Sierra street in said town be graded and paved according to said plans and specifications. It is ordered that the last above mentioned portion of said streets be graded and paved according to Class A of said plans and specifications as now adopted. That thirty days notice of the letting of contracts to grade and pave said portions of said streets according to said plans and specifications be given by advertisement in the Reno Journal, a newspaper published at Reno, Nevada, that such contract will be let to the lowest responsible bidder who will give satisfactory guarantee to keep the same in repair five years subject to the right of any property owner fronting on said street to make said improvement according to Class A of said plans and specifications in front of his property by private contract to be approved by this Board.

It is further ordered that the cost of grading and paving that portion of said streets fronting and abutting private property be paid by the owners of the abutting property according to the number of feet fronting or abutting on said improvement, and that the cost thereof be assessed accordingly against said property, and be a tax and lien thereon, and that the cost of grading and paving all street and alley crossings and intersections included within that portion of said streets hereby ordered to be graded and paved, be paid by and out of the public funds.

By order of the Board of County Commissioners acting for the benefit of the Town of Reno.

THE CROP BULLETIN.

Climatic Conditions and Agricultural Products in the State Last Week.

CARSON CITY, July 23, 1901.

Weather—High temperature and excessive sunshine characterized the weather of the past week. Temperatures in northern portion ranged from 43 to 95 and in western districts from 44 to 93. There was no precipitation of any consequence reported, the weather being cloudless, with a high percentage of sunshine in all districts.

Crops—Reports of correspondents for the past week are very favorable and indicate that the growing crops are doing well and making satisfactory progress in all districts. Grain is ripening rapidly and hay is general with variable results. Our Nye county correspondents reports a discouraging outlook for hay in his section, caused by worms and grasshoppers. Indications look favorable for considerable fruit this year. Apples and new potatoes are being marketed in western districts. In some districts the range feed is getting dry and short and cattle and sheep are not doing extra well.

The rivers are falling rapidly, though water is still plentiful for irrigation.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

HERRON UNCOMMUNICATIVE ON SEVERAL SUBJECTS

Wouldn't Discuss Tax Suit or Terminal Rates but Thinks That Reno Has a Bright Future.

The special car Sacramento rolled in from Carson last evening. It carried W. F. Herron, head of the law department of the Southern Pacific Company and other officials and attorneys who were present at the suit tried in the United States Court wherein the railroad company is testing the validity of the action of the State Board of Assessors in raising the valuation of the company's track in Nevada.

A Journal scribe interviewed, or attempted to interview Mr. Herron, but the latter was silent as the Spanish when pertinent, or rather, impertinent, questions were asked.

He expressed himself as greatly impressed with the appearance of prosperity evidenced by this city and stated that "there are strong possibilities, nay probabilities, of Reno shortly becoming the queen of the Great Basin."

"Does not the action of the commissioners and assessors of Washoe county, as well as the recent attitude of the press prove that Reno desires to bury the hatchet and look to the railroad company for assistance and co-operation."

That is a question that could be answered only by President Hays' department.

Is there any basis for the rumor that the shops of the railroad will be removed to Reno and this city be made head of a division?

That is a question that could be answered only by President Hays' department.

Is there not good reason for believing that in the near future Reno

will be made a terminal point and given low rates on freight from the east and the coast?

"That is a question that could be answered only by President Hays' department."

After this last stereotyped reply Mr. Herron came out of his icy environment and inquired about the progress of Reno during the past few months. He did not seem to need much information, for it was speedily patent that he had familiarized himself on such facts as the discovery of rich mines in this section of the purchase of the C. & C. by the Espee and the proposition to broad gauge the road. He was perfectly cognizant of the fact that Reno was adopting municipal improvements and that it was rapidly forging ahead.

There was only one point on which he seemed eager for information. He inquired if the granting of terminal rates to Reno would not injure San Francisco wholesalers. The Journal scribe informed Mr. Herron that to the best of his knowledge and belief the Reno merchants purchased their supplies chiefly from eastern manufacturers and producers, but that with terminal rates the chances are that San Francisco wholesalers would be largely patronized on account of the quickness with which goods could be obtained from there.

The head of the law department of the Southern Pacific Company in another perfect and relaxed into deep thought, while the porter assisted the reporter to alight from the rolling palace.

MINERALS RESERVED

Claim Owners Have Prior Right.

Decision by Surveyor-General Relative to Patents on State Land.

An opinion has been rendered by Surveyor-General Kelley that will set the doubts of many prospectors in this vicinity at rest.

Alfred Nelson and W. R. Williams discovered after they had located their North Star claims Nos. 1, 2 and 3 near this city that they were on land for which an application for patent had been made by T. P. Bradshaw and title afterwards transferred to the Occidental Land and Improvement Company.

Mr. Nelson and his partner filed a protest to the issuance of the patent and made inquiries at the State Land office with the following result:

CARSON CITY, July 22, 1901. Messrs. Alfred Nelson and W. R. Williams,

Reno, Nevada. Gentlemen: In reply to your communication of the 20th inst., which I return herewith, I beg to state that I have no authority to revoke the contract between the State and Mr. T. P. Bradshaw on application No. 10871, contract No. 6146, for certain lands in Sec. 26, T. 20, N. R. 19 E. The land was approved to the State upon compliance with the requirements of the General Land Office, but the terms of the contract provide that all minerals of gold, silver, copper, lead, cinnabar, and other valuable minerals that may exist in said lands are, expressly reserved to the State. The State Land Laws, a marked copy of which I send you defines the rights of persons, who may discover mines on contract lands, or lands to which State patents have been issued. If you find mines on such lands comply with the requirements of the mining laws of the State, and of the United States and you can doubtless, maintain your title to the mines. Very respectfully,

THE DISTRIBUTING POINT FOR THE GREAT BASIN

Reno Is Pronounced to Be a Place of Promise—Central Point in a Rich Region.

"Reno is a town of wonderful possibilities," said Henry O. Tair, a tourist from Boston, to a Journal scribe last evening.

"In point of territory there is no city in the United States with so great a region tributary to it."

"I am informed that this town is the distributing point for the entire country stretching from southeastern Oregon down the summit of the Sierras to the Mohave desert in California, and eastern midway to Ogden, Utah. This comprises a region several times greater than the State of New York and at least six times larger than Massachusetts. In my travels and from my information I learn that if terminal rates were granted to your city by the railroad company Reno would soon become one of the greatest wholesale cities in the west."

"You have lines of railroad extending through this territory to the four points of the compass. They traverse sections rich in undeveloped resources. Some of the mines are already becoming great producers and eastern capital is putting others on a paying basis. The day is past when Nevada will be famed chiefly for the wealth of the Comstock."

A multitude of other and new camps will produce in the aggregate many times the amount of wealth derived from the famous mines of Virginia City.

"This territory tributary to Reno is not only a mining region. It is one of the best stock growing districts in the world. I learned in Chicago that west-

ern Nevada lamba commanded the highest price on the market. Your beef is also world famous.

"So far as agriculture is concerned, your products are yielded by no other district in the world in quality. The only thing lacking is water wherewith to irrigate your thirsty but highly productive soil. I am informed that the Federal government has made appropriations for studying the proposition of storing the flood waters of the Truckee, Carson and Walker rivers. If the reports made are favorable, and I doubt not that they will be, the government will construct a series of mammoth reservoirs and reclaim hundreds of thousands of acres that are now deserts, but in time will support an immense population."

"Reno is one of the best situated cities in the west for progress in the line of manufactures. It lies close to the great timber belt of the Sierras and has two lines of railroad running into the forests. The unequalled power of the rapidly rushing Truckee will some day be used to propel great manufacturing and ore reduction plants in your city."

"I noticed in driving about the town that there is great activity in the building trades. Residences and business houses are being erected everywhere. What impresses me most is that this work is largely being done by local capital. No effort is being made to bring in foreign money to reap the interest harvest that belongs to your own people of property."

"Yes, Reno and, in fact the whole State of Nevada, is on the up grade."

HIS HONOR'S DAILY LEVEE

Justice Linn Metes Out Mercy and Justice to His Visitors.

Justice Linn elevated his feet and took a pinch of snuff as his daily levee opened yesterday morning. He wore a red neck tie and a smile, that was child-like and bland, but the latter was a delusion and a snare as the prisoners in the dock discovered. There was the usual collection of drunks and hoboes all looking as innocent as the mobility of their countenances would permit.

Harry Frick was the first victim. He pleaded guilty to looking upon and imbibing various and diverse glasses of the compound of malt and hops yeasted beer, and was advised to shun the intoxicating bowl with a twelve hours' start—he started.

Indian Frank, Mahala Morgan and a white man were relegated to the affectionate care of Sheriff McInnis for twenty days.

E. Abbott, arrested for being crazy drunk, appeared in the role of funny interloper when haled to the courtroom. "Uncle Jake" didn't have the sense of humor appropriate to the occasion and Mr. Abbott will have a chance to be initiated into the chain gang and exercise his funny bone on the business end of a shovelful.

WATER COMPANY WILL STAND IN

One of the chief arguments of the opponents to bituminizing the streets has been that the paving material would hardly be set before it would be torn up by the water company to make repairs.

Electrician Askins of the R. W. L. & L. Co. informed the Journal yesterday that the officers of the company had decided to renew their mains on all the streets which are to be paved and would lay larger and better pipes. This removes the chief argument against this greatly needed municipal improvement.

OLD PYRAMID TO THE FORE

This Famous District Is Soon to Be Extensively Developed.

Splendid reports continue to come from the Pyramid group. The Empire Company has cleaned out the J. & K. tunnel and laid new track.

The shaft in this famous mine is down 680 feet and a tunnel is in 1700 feet. From its face an upraise runs into the ore body which is eleven feet thick. A recent assay from samples across the lead ran \$20.11 in gold \$68.05 ounces in silver and 16 per cent copper. The Crown Prince is also showing up in good shape. There is a fourteen foot lead in this mine that carried \$5.05 in gold, 20 ounces of silver and 7 per cent copper.

Under the supervision of R. W. Parry of this city this famous old group of mines is rapidly coming to the fore.

In the early days the claims were extensively worked for gold and silver, but when the moisture line was reached copper began to make an appearance in large quantities and rendered the ore rebellious for at that time the red metal had little value and was a detriment to the ore.

Lack of knowledge of smelting was displayed by the persons in charge of the reduction works in those days and the mine was for a number of years abandoned. Under the present untold management the famous old mines will doubtless soon be put on a dividend paying basis and the towns of Upper and Lower Pyramid will be again habilitated. The outcome of the work of the present management is eagerly looked for by Renolites, for a successful working of this mine will mean much for this city.

A SPEEDY TRACK AT FAIR GROUND

Considerable money has been spent on the track at the State Fair grounds and it is said to be in superb condition and by the time the fair opens will be one of the fastest on the coast. The houses now on the grounds are trying for speed and are said to be showing up well.

Charlie Leeper's Wilfred Del has developed such splendid form that it will be taken to the California State Fair, where it will be entered in several events.

RAILROAD TAX SUIT

Proceedings in This Action That Has Been Brought Against the State.

Yesterday afternoon the Central Pacific introduced a number of affidavits from members of the California Railroad Commission and others stating that in the opinion of the subscribers the road was worth between \$8000 and \$12,000 a mile. The complainant objected to the introduction of the Interstate Commerce report on the ground that it did not show on its face that it emanated from any Central Pacific officer. Controller Davis, however, made affidavit that it did and so it was conditionally admitted, says the News.

Assessor Guthrie, of Humboldt county, has taken the same position as the assessor of Washoe county—that \$20,000 a mile is more than the railroad is worth, and he also appears separately.

The Central Pacific tax suit was resumed this morning in the United States Circuit Court by the introduction of the State. Both sides then submitted of three or four affidavits on behalf of the State. The case, so far as the evidence should have the privilege of submitting, however, that the complainant railroad rebuttal affidavits some time within the next week if after the argument it was deemed expedient. It was then agreed by respective counsel that each side should be allotted two hours for argument to be apportioned among attorneys as counsel determined.

QUICK PRINTING; NEAT PRINTING

If you use bill heads letter heads, professional cards or any other sort of job work you want the best that is to be had for a reasonable price.
